

I am writing regarding the Klove radio station, which I listen to on a daily basis. The staff of 91.1 FM serve me on a daily basis with support and encouragement. This non-profit organization provides services to the community at large by providing free advertisement to many other such organizations. I hear daily testimonials from listeners how their lives have been enriched by this service and I believe it is in the public's best interest to continue. I believe so strongly in this service, I support it financially on a monthly basis. I believe lives are touched and altered by the staff of qualified counselors. Please keep KLOVE! Thanks!!
